

# ANIMATE ORCHESTRA TASTER SESSIONS

Animate Orchestra offers young musicians and music technology artists opportunities to play together and create their own music in a 'Young Person's Orchestra for the 21st Century'. Young people experience the musical teamwork of playing in ensembles and explore their own ideas of how music of the future might look and sound, working alongside professional musicians from Trinity Laban, the LPO and local music hubs.

As part of a two year partnership with Evelyn Grace Academy, Trinity Laban will hold Animate Taster sessions at EGA, for groups of mixed age instrumentalists. All participants will then be invited to future Animate events in the local area and beyond that happen outside of school times.

This is an opportunity for groups to experience what Animate Orchestra is all about, meet new friends and discover other music-making opportunities available.

To take part in this Animate Taster Day participants should:

- Be in school years 5-9
- Never have taken part in Animate Orchestra activity, or only tried Animate once or twice before
- Play an instrument or have an interest in music technology
- Have lots of enthusiasm for creating their own music

(No prior orchestral experience is necessary)

The taster sessions will run over two half days at EGA.
